

# Chalkboard Technique

by Beate Johns

Use White craft ink and Chalks to highlight images on dark cardstock.

## Supplies

### Chalks

**Sponge Daubers**, Q-tips™ or other applicator for chalks

**dark cardstock**

**Swiffer™ towel** or other paper towel

## Step-by-Step

### Step 1

Ink a **solid image stamp** with **white pigment ink** and stamp on **dark cardstock**.

### Step 2

Twist a **sponge dauber** in the **chalk** color of choice

---

and dab it over the stamped image.  
I did not wait for the ink to dry.

### Step 3

Continue to add colors to the stamped image until all ink is covered in chalk.

### Step 4

Carefully wipe image with a **Swiffer™ towel** to remove excess chalk.

### Step 5

Finished card.

The chalk seems to stick to the ink very well, so a sealant is optional.

### Variations

#### Basic Chalkboard look

Use black cardstock for your base for a true chalkboard look.

**Pencils work too!**
